FOR IMMEDIATE RELEASE

Clarksburg Water Board offering free drinking water sampling

CLARKSBURG, W.Va. – The Clarksburg Water Board (CWB) is offering free drinking water sampling to all customers. This service will be completely voluntary and available over the next several weeks.

CWB is working with the U. S. Environmental Protection Agency to perform this service as part of their ongoing efforts to identify and remove old lead service lines in the area. In the next few days, CWB customers will receive a phone call from the EPA's partner, Battelle, with more information about the effort and instructions on how to participate. The call will come from a 614 area code.

Battelle will come to the homes of customers who choose to participate in the sampling. The process will take approximately 30 minutes.

This is just one step in the comprehensive approach the Clarksburg Water Board is taking to address the matter. Should residents have any questions surrounding the drinking water testing, please reach out to CWB through the water sampling hotline at (304) 423-7952.
