

CLARKSBURG WATER BOARD

FIRE HYDRANT FLUSHING

The Clarksburg Water Board will be
flushing fire hydrants

JUNE 1, 2026
THROUGH
AUGUST 31, 2026

WHAT CUSTOMERS MAY EXPERIENCE

Discolored Water

Water may temporarily appear rusty or cloudy.
This is normal and not harmful.

Changes in Water Pressure

You may experience lower-than-normal
water pressure during flushing.

Temporary Sediment

Small particles may be present.
Run cold water for a few minutes
to clear your pipes.

Hydrant flushing helps
maintain water quality,
ensure reliable service,
and protect against
fire emergencies.

This includes the
Clarksburg Water Board
System (including
Summit Park) and
Short Line Public
Service District System.
